## SUMMARY

Hello World!
I'm Praneeth, I'm currently in my 2nd year of college (3rd semester, cse core) and I've been having a ton of fun along my Web-developer Journey! It always excites me when I get to work on building beautiful, responsive and reliable websites and I plan on continuing this journey as a Fullstack developer because I love what I do, which in turn makes me feel motivated and very passionate about my work. Constantly trying to learn new things and get better than I already am is what I value the most.

## EXPERIENCE

### Project Lead
**Codify Apps Private Limited**                                    September 2022 – Present
